The Steeline FNW Style Choice Edge

Steeline FNW specialise in manufacturing custom made genuine Colorbond® steel fences and gates that are fit for purpose, no matter if you are a home owner, business owner or tradie our highly experienced team can work with you to devise the best solution of Style Choice steel fencing for your needs.

Our range of Style Choice steel panels are manufactured in-house at our Brisbane and Toowoomba facilities in a large range of styles, colours and sizes.

Why Choose Steeline FNW Style Choice Colorbond® Steel Fencing

Easy on the eye and very low maintenance, genuine Colorbond steel is a popular choice for residential fencing and gates as it looks great from both sides, 22 colour options and 4 sleek profiles: Supersaw, SteelClad, Corrugated and UniRib panel styles to choose from.

What's more, it's a highly durable material that's been designed to withstand the Australian climate. It doesn't require any ongoing painting, oiling or general upkeep, plus it's rot, termite and fire resistant.

Our genuine Colorbond steel fencing & gates are also covered by a 10-year Bluescope Steel guarantee*.

Improved Privacy & Security

While normal sized steel fencing enhances privacy and security, we can further increase the height of your fence for an even better result. We manufacture panels from 900mm – 2100mm high and we can custom make on request. We also offer fully customisable privacy screens that can be attached to the top of your fenceline.

We have aluminium slat style privacy screens that can add height to your fence and achieve a very decorative effect. We also offer steel laser cut lattice privacy screens as a more cost-effective option and can arrange custom steel laser cut designs upon request.

*Warranty subject to exclusions, application and eligibility criteria. For full terms and conditions and to determine the eligibility of your fence for the warranty visit bluescopesteel.com.au/warranties or call BlueScope on 1800 800 789. Warranties provided by BlueScope do not affect consumer rights under the Australian Consumer Law.

THINGS TO CONSIDER

SOIL TYPE

Soil type can effect the depth of hole needed to secure your new fence safely, this will also effect the length of posts that are required.

SOIL TYPE	MINIMUM HOLE DEPTH	APPROXIMATE CONCRETE REQUIRED Recommended 20MPa Standard Concrete Mix
Rock	400mm	1 bag per hole (20kg bag)
Clay/Firm Earth	600mm	2 bags per hole (20kg bag)
Sand/Loose Fill	900mm	3 bags per hole (20kg bag)

SLOPING OR UNEVEN SITES

Remember when measuring to put down any raise or fall of the ground and choose if you would like for it to be a Raked or Stepped.

It is recommended that you rake out your fence on sloping or uneven ground rather than stepping the panels. It achieves a better overall appearance as well as providing a stonger fence.

Raked fences may require additional preparation of rails and infill sheets determined by the height of the raked section, longer rails and sheets may be required.

TAPERING THE FRONT OF YOUR FENCE

It is recommended that you taper the last two panels of your fence at an unsupported end, particularly where your fence extends beyond the front of your house.

The minimal extra effort in tapering the unsupported end will provide a better looking fence than a stepped fence and is much stronger.

DETERMINE ENDS, CORNERS & JUNCTIONS

Remember the finer details can help make your project come to life. Choose how you would like to see your project finish.

JUNCTION OPTIONS

HAVE YOU GOT WHAT YOU NEED?

COLOUR YOUR FENCE

Of all the elements of design, colour is the most powerful and personal. The COLORBOND® steel colour palette makes it easy to express yourself with colour. Steeline FNW provides you with a huge colour range to choose from which have been inspired by Australia's own magnificent backyard.

Colorbond®

The COLORBOND® steel colour swatches in this brochure have been reproduced to represent actual product colours as accurately as possible. However we recommend checking your chosen colour against an actual sample of the product before purchasing, as varying light conditions and limitations of the printing process may affect colour tones. COLORBOND® and ® colour names are registered trade marks of BlueScope Steel Limited. ™ colour names are trade marks of BlueScope Steel Limited. ABN 16 000 011 058. All rights reserved.
